## HT-1500

### Regulated AC/DC Switching Adaptor

#### Main Features

- 12VDC - 1.5A (18W)
- Short Circuit Protection
- With EU input power cable

#### Technical Parameters

| Input                    | 110-240VAC 50/60Hz         |
|--------------------------|----------------------------|
| Output                   | Output: 12VDC - max 1500mA |
| Power                    | 18W                        |
| Connector size           | Ø5.5*Ø2.1*10mm             |
| DC cable length          | 1.5m                       |
| Over Voltage Protection  | Yes                        |
| Over Current Protection  | Yes                        |
| Short Circuit Protection | Yes                        |
| Over Load Protection     | Yes                        |
| Weight                   | 0.17kg                     |
|                          |                            |
|                          |                            |
|                          |                            |
|                          |                            |
